

Bounce Boot Camp
Anthem, Arizona

February 15, 2012

Dear Thomas and Jane:

We want to thank you so much for volunteering at the We Are S.A.F.E.R. event (WeAreSAFER.org). We know that a lot of time went into planning and being at the event. We are truly grateful for your participation!

The event was a huge success and the First Responders and their families really felt the care and appreciation from our great Community. So many people came out to express gratitude for what the First Responders do every day and night for Communities, such as ours. It was a great day!

Thank you again for being able to reach out to more than 300 children that day with your bounce houses and fun! I know many families commented on the fun that their children had that day! It is important to the First Responders that their children experience and take part in the tangible expression of appreciation from the Community as well.

Your program, your trainers, the quality of your services, and the fact that you were able to adapt and control a setting of 300+ children was truly a valuable part of the day and it impacted the Community in such a positive way.

Again, thank you for your participation!

Sincerely,

Wende Bartolomeo
